

Dr. Larisa Kimuri

Dr. Kimuri is a native Kansan and Jayhawk. She received her undergraduate degree from the University of Kansas (KU) and her medical degree from KU Medical Center in Kansas City. She joined the practice in August 2008. Larisa says she was naturally drawn to family medicine because of the wonderful variety of conditions that are treated. She also has a strong desire to care for people of all ages and a particular love for obstetrics.

Larisa is married to husband Eric and they have three children, Gabriel, Morgan and Henry. Among other things, they enjoy bike-riding as a family. Eric is a native of Kenya, where Larisa and her family have had the opportunity to visit.

Her nurse Crystal Dwyer enjoys spending time with her husband Todd and two young sons Tate and Parker. Crystal and her family live on the outskirts of Lawrence. Crystal and Dr. Kimuri make a great team caring for all patients.
